# R207.1 Mode Spring Autostop Roller Blind

How to set the Autostop feature
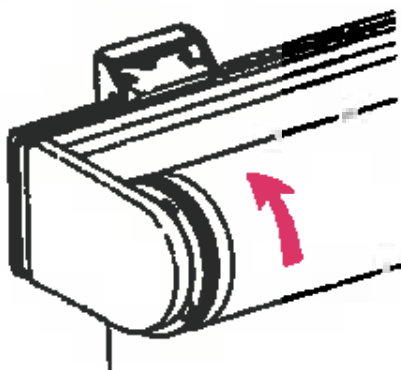

ONE

Turn the dial in the direction indicated above. This will release the roller lock.
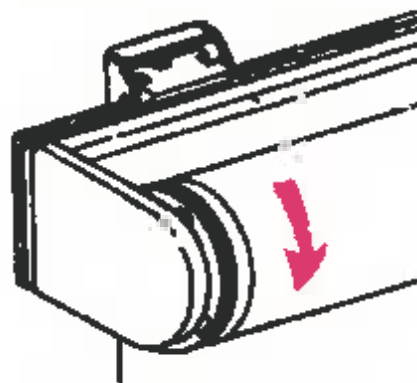

TWO

Pull down the blind to the desired stop position.

THREE

Turn the dial in the direction indicated, so the Autostop will lock back into place.

FOUR

Return the dial to its original position, so the pre-set stopper will be released. Repeat 1, 2 and 3 again.
