

## Verosol at R+T Stuttgart 2015

Verosol has had another successful exhibition at R+T Stuttgart 2015 (24 - 28 February), the world's leading trade fair for roller shutters, doors/gates and sun protection systems. Showcasing the company's major innovations for the upcoming year, Verosol's stand reinforced the company's global stance in the industry and our passion for translating trends and developments into new standards in the market .

Many of Verosol's customers had the opportunity to see first hand the exciting new innovations from the Verosol group. Having received an array of positive feedback from our customers, Verosol is confident the new products and systems will make significant impacts to the industry.

"It was a big eye opener to the industry. The more minimalistic approach by Verosol meant the stand wasn't clustered with too many products, and showed focus on the big innovations. Verosol's Crystal Screen was a show highlight, and definitely a promising product."

- **Peter Kennedy, Tom Kennedy Interiors**

"The Verosol stand looked great - it had a lively feel where many others didn't and were quite sterile. It was great catching up with everyone and networking."

- **Sonya Wilson, KWA Blinds**

"It was great to see a good presence and a highly attractive display from Verosol. The whole look of the stand worked extremely well and I liked it a lot; it's the best stand you've ever done. It was great to have the opportunity to re-establish relationships with Verosol staff from Netherlands, as well as the world-wide network of dealers. The 3.20m+ metallised fabric is definitely a winning point for Verosol."
