

THE VEROSOL CONVENTION IS BACK!

Join us at Stuttgart R+T 2018

So by now as a valued member of the Verosol family, you would have all received your initial notification that Convention is back with our upcoming trip to the R+T Fair and Verosol Netherlands in Feb-March 2018.

Well as the year rolls on, you will be updated with notifications highlighting key aspects of the trip from initial planned dates, the qualification points criteria, all the fun stuff and the journey detail etc.

So let's get to the where:

The plan is to leave Australia Friday 23rd of Feb, arriving into Amsterdam on the 24th where we will capture the city's culture and nightlife that evening, then the Sunday afternoon head into Eibergen, the home of Verosol for a Monday morning tour and training session. Monday afternoon will see us depart for Stuttgart R+T and associated activities before we fly out to Frankfurt March 4th for departures back home for some or onwards to alternative destinations for others. A detailed itinerary will follow shortly. Transport will comprise of Air/Train or Coach and it won't be all R+T with the odd tour/activity in between.

Now the how:

The Points or what we like to refer to as Veropoints or Vero(s) for short. Simply the more you sell, the more Vero(s) you gather, the greater the opportunity you have to boost a freebie or two or part there -of. Tickets are pro-rata, so essentially if you gain enough Vero(s) for one or more tickets, great, but you might only accumulate enough Vero(s) to cover half a ticket, which is fine, you simply pay the balance and you're off flying VeroAir with all of us.

Just a further note, it's all about the Verosol family, so remember that Vero(s) apply to the business family only being principals, their partners and direct employees actively involved in the business and not for friends etc.

Do I need to be in the Verosol Specialist programme to go?

Well kind of, but we'll cut you a bit of slack at first. Simply if you are an existing Specialist then you get an initial 20,000 kick off Vero(s) to start with and you're off and running. If you're not a Specialist but you are one of the aspiring dealers of whom your Account Mgr deem as a potential by invitation, then you can accumulate Vero(s). So why wait, get signed up, grab the 20,000 Vero(s) head start and before you know it, your will be cruising the canals of Amsterdam.

So what's the Vero break down look like?

- 220, 000 Vero(s) gets you one free ticket
- Under or over that amount will count, as each ticket is pro-rata. So again if you earn say 110,000 Vero(s) then you simply pay the balance. There is no minimum qualifying criteria so be it 1000 Vero(s) or 100,000 Vero(s), it doesn't matter, just pay the balance and come along.
- All Vero(s) are NET sales Ex-GST
- All Vero(s) are allocated according to discounts given. So if you are a Residential Specialist and you are awarded an additional discount beyond your standard discount for a particular order, then it will be deemed as Commercial and the Commercial Vero point scale will apply.

Residential Vero Break-Up based on standard dealer discount. Residential Vero-points scale

Important to note

Remember your Veropoints have started to accumulate already from January this year and will conclude December 21, close of play for 2017 on all net product sales invoiced!

Also your account will need to be fully financial by take off!

Let's bring in a bumper 2017 with lots of Vero(s) to come.

What to expect next? Register

You will receive a notification to register your interest, don't worry we are recording your Vero(s) right now, but we will need to know if you are keen to be a part of our Convention at some point, so expect a note real soon.

Registration will allow us to keep you informed on Convention stuff as we go but not bug those who decide this Convention thing isn't for them, sad to hear but that's a choice for some.
