

A6800 Series Curtain Track

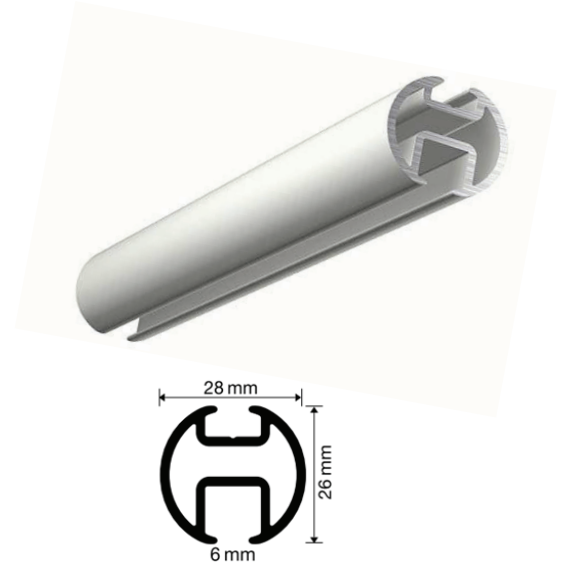

Product Information

The Verosol **A6800 series track** is a stylish 28mm tube slider featuring a textured powdercoat finish in white or black. Utilising a pillar bracketing system, it's suitable for top, or face mount. Suitable for bending & radial curves The installed profile is designed to look the same from both inside and out, and is perfect for residential & commercial applications.

Selecting the right curtains requires pairing two elements: drape and track. When selecting Curtains, you will need to consider the functionality and combination of fabrics including the header types and tracks for the space.

Drape selection should take into consideration the heading style of the curtain and finished look. Track selection will depend on installation requirement and drape fullness. Various fabrics and track combinations can provide thermal, acoustic and ambience to any room.

Our team of curtain and blind experts are available to assist you in making the right choice for your needs.
