Verosol Pure G3 – The Next Generation of Sheer Performance

Features

- An expanded, on-trend colour palette offers increased design flexibility, making Pure G3 suitable for a wide variety of residential and commercial environments.
- Engineered with a 15–20% openness factor, Pure G3 provides clear outward visibility while delivering soft, diffused natural light inside. Daytime privacy is maintained, with privacy reversing when the exterior is brighter.
- Pure G3 offers a refined, PVC-free solution for customers wanting the softness of a sheer without relying on traditional PVC screen fabrics — blending performance with environmentally conscious design.
- Suitable for Roller Blinds, Roman Blinds and Panel Glides

Care Instructions

For regular maintenance, use a soft feather duster or vacuum-clean with a soft brush in a low setting. Always exercise caution when spot cleaning. Use a clean lint-free cloth or sponge and dip it in warm water. Dry gently with a clean towel. Always test any cleaning product on a small discreet area of the fabric to ensure compatibility as chemicals will permanently damage your fabric.
