

New & Exclusive to Verosol

SMART FRAME SYSTEM

Verosol Australia proudly introduces the motorised **Smart Frame** for tilt-and-turn windows and doors. This innovative solution brings high-tech automation to the exact premise of our popular manual **Framed Pleated and Cellular system**.

Engineered flawlessly for Verosol's world-class **25mm Pleated and Cellular fabrics**, the Smart Frame delivers cord-free elegance. It operates seamlessly via app, smart home integration, or manually at the glass using an **integrated rail push button**.

SMART FRAME SYSTEM

Intelligent, solar powered solution for tilt & turn windows.

FEATURES & BENEFITS

- **Zero-Damage Magnetic Mount**: Drill free magnetic installation. Clips instantly onto timber, PVC, or aluminium joinery without drilling.
- **Eco-Friendly Solar Top-Ups**: Optional glass-facing solar panel provides continuous, maintenance-free battery charging, or USB-C plug in charging.
- **Versatile Motor Layouts**: Available in single motor (one rail motorised) or dual motor (both rails motorised).
- **Tactile Rail Push Button**: Allows instant manual operation directly at the glass pane.
- **Completely Cordless Safety**: Removes all hazardous hanging cords for a 100% child-safe design.
- **Seamless Smart Automation**: Links natively to Apple Home, Google Home, and Alexa via app or bridge.
- **Three Premium Finishes**: Available in White, Off White, and Black.
