Architect:	Rogers Stirk Harbour & Partners and Lendlease
Product Type:	Motorisation
Product System:	Home & Building Management Systems
Fabric:	205 Silverscreen Semi Transparent
Colour:	Dark Grey Qty:

### Summary

The Barangaroo Tower 3 is considered as Australia's building of the decade. At 168 metres tall and 39 levels, Tower 3 offers the ultimate, flexible and modern workspaces. The amazing glass facade required a sustainable solution for solar control and its impact on the temperature inside the building during the harsh Australian weather conditions.

### Benefits of Verosol

Tower 3 was awarded a 6 Star Green Star rating from the Green Building Council of Australia (GBCA). To comply with this initiative, Verosol's Silverscreen 205 G1 fabric was introduced. Manufactured with a thermal and reflective Aluminium backing, Silverscreen 205 was specified due to its high solar reflectance achieving an impressive 76% - 78% outside reflection. This makes it highly sustainable, flame retardant and very energy efficient.
