

## Thames Water Operations Centre

### Light Control Systems

Type of Building:	Office Fitout
Project Location:	Reading
Architect:	Itineri
Product Type:	Pleated Blinds
Product System:	Standard Pleated Blind
Fabric:	
Colour:	Qty:

### Summary

General Information: The development Landlords product brief was for a non mechanical fixed mechanism. The client wanted a high performance semi transparent blind fabric which was also formaldehyde and PVC free.

### Benefits of Verosol

Final product selection was based on the double adhered tape mounting blind system and then the fabric performance. This followed full working mock ups on site facing south west.
